Note for File Harassment &amp; Provocation Study

Subject Classification Review.

1 In consequence of the Navy members questions about progress in the review of classification of the Harassment Study, I reviewed the responses to our SECOM-D-27, 10 Jan 1975 to CIA, DIA, State and AF.

2 Files contains a response from AF and CIA.

a. The AF responded by memo dated 16 Jan 1975 saying we could declassify and mark "For Official Use Only" four of the 5 examples.

On 23 Jan 1975, [ ] gave me a hand written note saying the same thing about the 5<sup>th</sup> example.

25X1

b. The CIA responded by memo dated 18 Feb 1975, saying we could declassify the CIA<sup>C</sup> input, but referring us to some unnamed agency for the decision on the remainder of the CIA input. CI was not able to tell us where they obtained this information which represents three examples used in the study. CIA (Mr Kane) also reemphasized that the study should only be used as a background paper, should not be given wide distribution or act as a substitute for a good oral briefing.

There was no response as of 19 February 1975 from State and DIA whose contributions represent approximately 41 % and are <sup>all</sup> classified Secret No ForN.

Rather than zig them, and in view of the fact that both of these agencies attended the Security Committee meeting yesterday when Navy asked about progress and the fact that the item will be mentioned in the minutes, I will give them until the end of February.

State's response was received 18 March 1975.

MEMORANDUM FOR: Executive Secretary, Security Committee  
United States Intelligence Board

SUBJECT : Request to Review Classification of  
Security Committee Publication, "A  
Study of Harassments and Provocations,"  
dated 4 December 1974

1. Referenced publication has been reviewed to determine whether the CIA input could be downgraded or declassified.

2. It has been determined that the information contained in the final paragraph on page 2, the first two paragraphs on page 3, the final paragraph on page 20, and all of page 21 was furnished by the Counterintelligence Group, Soviet/East European Division, Operations Directorate. Attached is a copy of a memorandum from Chief, Soviet/East European Division which concurs in the declassification of this information.

3. As you will recall, it has been determined that the remainder of the CIA contribution to the study was actually based on information furnished by other government agencies. Since you have indicated that requests already have been made to the appropriate agencies for declassification of this information, no further action on this matter is contemplated by this Office.

4. I would like to reemphasize my position that the study should only be used as a background paper from which an experienced briefer might draw examples to use in conjunction with other materials while conducting defensive briefings. This document will not stand alone and, in my opinion, should not be given wide distribution or act as a substitute for a good oral briefing.
